Western Athletics Trials

Congratulations to Adam Davison, Mackenzie Horsburgh, Ernie Jones and Riley Horsburgh who competed at the very wet Western Athletics Trials in Dubbo last Friday. We are still waiting on official results but the Small Schools Relay, consisting of these four students, finished 3rd in their heat and Adam narrowly missed the top 6 cut in both shot put and discus. A massive effort by all students in tough conditions. Thank you to the parents who attended the day and supported our students.

Year 9/10 Pass

Recently the 9/10 PASS Class has been learning about Lifestyle, Leisure and Recreation as part of this they have been participating in a number of leisure and recreation activities including lawn bowls and golf.

LIBRARY NEWS

It has been **Wonderful** to see so many primary and secondary students coming to the **Library** during lunch.

Students are enjoying coming to visit and we have enjoyed watching them make use all of our new board games, books and furniture.

The Wish List has proven to be very popular with many of the books already been purchased and students borrowing and **Reading** them.

REMINDERS

It would be great to see all students with a **Library bag** when borrowing. This helps protect our books from getting damaged.

There are a few students who have overdue books. Please check at home for these. Students are more than welcome to re-borrow these books.

Have a lovely week☺
Mrs Lindsay and Mrs Porter

Each week there will be a newsletter article promoting courses run across the Western Access Program. This program is highly successful in delivering a wider curriculum across our schools, maximising student choice and achievement.

Visual Design – Troy Jones - Trangie

Visual Design gives students the opportunity to develop an understanding and practice in a variety of fields including Graphic Design, Wearable Design, Product Design and Interior and Exterior Design. Students are challenged with a Design Brief each unit to create a product for a mock client. Students document the technical aspects of their work and document the evolution of their concepts and ideas through critical reflection and sketches. It encourages the exchange of views, constructive criticism and further enhances their design concepts. This term students are designing labels and packaging for a mock company.
